

MOBILE REFUELING MADE EASY

ABBI™

INTRODUCING THE ABBI MOBILE REFUELER

UP
TIME

INCREASE UPTIME

Job sites can consume a significant amount of fuel. Waiting for a fuel delivery stops your machinery & staff from continuing to work, & if not timed correctly can cause serious delays. With an Abbi mobile refueler, you can quickly & efficiently refuel machinery around your site & facility. The Abbi's UN DOT approved design allows for quick, compliant & safe transport to & from locations.

STRENGTH & SAVINGS

We understand the need for quality equipment that performs seamlessly & lasts a long time. The Abbi's all steel construction & access manway enable durability & easy access to the inner tank. This access allows for hassle-free routine maintenance that ensures a long life for your tank & ultimately saves you money.

SAFETY & PEACE OF MIND

Transporting & handling fuel requires reliable & environmentally friendly storage equipment. One spill can cause serious fines &, depending on the severity, can even hurt your company's reputation. The Abbi's double-walled, 110% contained design & integral equipment cabinet effectively capture & contain any potential drips or spills that could occur.

BUILT-IN SECURITY

Standard tanks with externally mounted pumps & equipment leave you vulnerable to theft & vandalism. With the Abbi's large lockable equipment cabinet, you can be sure that all of your pumping & dispensing equipment is fully secured. This added protection helps to minimize the risk of equipment or fuel theft & protect your investment.

NAUGHTON ENERGY

TRANSPORTABLE FUEL TANK

ABBI MOBILE REFUELER

264 – 710 GALLONS

FEATURES

UNIQUE DESIGN

Innovative shape has a lower center of gravity which provides safer & more reliable transportation.

INTERNAL BAFFLES

Designed to maximize stability when handling the tank full of fuel.

ACCESS MANWAY

Allows access to inner tank for easy routine maintenance & inspection.

LARGE LOCKABLE CABINET

Integral equipment cabinet that secures all equipment & ports while capturing any accidental drips or spills.

DOUBLE WALLED, 110% CONTAINMENT

Weather proof secondary containment ensures safe & environmentally compliant transport & storage.

FORKLIFT POCKETS

Quick & easy maneuvering when detached from trailer.

DOT APPROVED

The Abbi's fully galvanized trailer is fully compliant with DOT standards & features backlights & electric brakes for ease of use.
